

Below shows a comparison of how each of the four STAR Meet events are judged, and how each criterion is weighted. The (J#) represents which of the three judges will evaluate that specific criterion. Most of the speeches are scored very similarly. The differences are indicated by an asterisk (*). All should be 5-6 min.

One Act Event does not score actors on attire because actors should wear clothing that is comfortable and allows actor to move AND remain appropriate! Each actor should be able to successfully move throughout their performance and not break any dress code that has been established at each of their school sites.
